**Entry requirements**

For admission into the 12 subject course, applicants normally must have:

- an acceptable bachelor degree or a relevant professional qualification conducted at a standard equivalent to a bachelor’s degree; and
- access to a workplace or projects which could be the basis of their entrepreneurial assignments and project.

Participants not having an acceptable bachelor degree or equivalent do have a pathway to the MBA on a stage-by-stage basis if they successfully complete the 4-subject Graduate Certificate in Management, followed by the 4-subject Graduate Diploma in Management and finally the 4-subject MBA stage of the course. They may enroll in the Graduate Certificate in Management course provided they have:

- completed a recognised diploma (or qualification deemed equivalent to an Advanced Diploma under the Australian Qualifications Framework) or are able to demonstrate that they have equivalent experience and learning (for example, in the form of ranking or seniority in their organisation) or have specialised professional or technical qualifications or such other qualifications as are deemed acceptable to the Director;
- at least two years’ significant work experience;
- access to a workplace or projects which could be the basis of their entrepreneurial assignments and project; and
- adequate proficiency in English, at levels similar to those adopted by universities.

The Master of Business Administration in Entrepreneurial Management

Programme Overview
The Entrepreneurship Institute of Australia (EIA) is dedicated solely to the professional development of entrepreneurs and corporate intrapreneurs in Australia and internationally. EIA also offers undergraduate and postgraduate programmes specialising in Entrepreneurial Management. Based in Adelaide, South Australia, EIA is a recognised Degree Confering Institution with all its qualifications accredited by the South Australian Government and recognised within the national Australian Qualifications Framework (AQF), which provides a nationally consistent framework for all qualifications issued by higher education institutions.

The Entrepreneurial MBA is designed to help business-minded individuals to be best-prepared in their profession as entrepreneurs in their own right or as corporate intrapreneurs in an increasingly competitive market setting. Specifically aimed at working adults and university graduates, it combines the convenience of directed reading with the participant / faculty interaction that comes with intensive workshops.

The 12 month Entrepreneurial MBA course has been designed to:

- provide participants with knowledge of a broad range of management issues to enable them to become effective entrepreneurial or intrapreneurial managers
- use an active action learning approach to entrepreneurial management
- enable participants to apply their learning through an entrepreneurial project

Course Content
The subjects are as follows:
- Entrepreneurship
- New Venture Creation
- Entrepreneurship and Globalisation
- Franchising
- Strategic Human Resource Management
- Leadership and Organisational Behaviour
- Strategic Management
- Strategic Marketing
- Legal Issues
- Strategic Operations Issues
- Strategic Finance Issues
- Entrepreneurial Project

Course Design and Content
The summaries of the 12 subjects are shown in the table overleaf.

Each subject involves the presentation of a body of knowledge by faculty with extensive managerial or entrepreneurial experience. The learning approach uses lectures, video presentations, case studies, group discussions and directed reading.

As the action-oriented learning approach is used in the delivery of the programme, participants are able to maximise their entrepreneurial management skills and potential by completing the assignments and the Entrepreneurial Project thereby applying theory to practice.

The course work, assignments, the Entrepreneurial Project and in-class assessments will normally be completed in 12 months.

Assessment
For each subject, participants will complete an assignment and in-class assessments. For the Entrepreneurial Project, the participants will complete a major assignment comprising a real-life entrepreneurial / intrapreneurial venture where the participants utilise the skills gained during the specialised programme to undertake hands-on research in a new business enterprise or an existing workplace.

Fees
The fee for the programme is set out in the insert. It covers tuition, notes and assessment. The fee does not include cost of textbooks or travel, accommodation, medical, and living expenses incurred for the duration of the programme.

Faculty
The Entrepreneurial MBA subjects are facilitated by a highly qualified and experienced team of facilitators who are committed to the ideals of entrepreneurial management development.
